

Workshops are required in place of laboratory sessions during three(3) weeks of the semester

The workshops will be led by the instructor(Boccio)

Workshops will be available at these times

Monday afternoon 2:00PM-4:00PM

Wednesday afternoon 2:00PM-4:00PM

Thursday afternoon 2:00PM-4:00PM

or Friday afternoon 2:00PM-4:00PM

### Schedule

Week 01 Vector Calculus Workshop(no lab)

Week 02 Gauss's Law Workshop (no lab)

Week 10 Ampere's Law Workshop (no lab)

The workshops will consist of group problems, individual problems and some blackboard instruction. The idea is to reinforce the work that is taking place in regular class lectures, doing homework and problem sessions when we are covering some particularly difficult and confusing topics

### Location

Physics 008 Laboratory - SC L45

Your attendance is required for at least one of the workshops during each of the three weeks
