

## MATLAB Manual Index

- Array Products 32
- axis command 16
- Built-In Functions 4, 51
- Colon Operator 8
- colormap command 65
- contour command 60
- fopen command 70
- fscanf command 70
- fclose command 70
- for loops 38
- Formatted Files 71
- Function M-Files 46
- Getting Started 1
- hold on/off command 14
- if..then...else...end 45
- image command 65
- Linear Equations 34
- load command 67
- Logical Operators 40
- Loops 37
- Matrices 22
- mesh command 59
- meshgrid command 58
- M-Files 74
- pcolor command 66
- plot command 11
- plot3 command 61
- print command 14
- Programming in MATLAB 74
- Programming - Example M-Files 76
- Reading/Writing Datafiles 67
- save command 68
- Script Files 17
- Strings 36
- subplot command 15
- Suppressing Output 4
- surf command 59
- tic/toc 67
- Transpose 10
- Variables 4
- Vectors 7
- Vector Operations 17
- while loops 43
